**Infinity Staffing Solutions' Accounting and Finance** division focuses on the permanent staffing needs of our clients' accounting and finance departments. We have the capability to assist our clients with their staffing needs at any level of experience including entry level up through to senior management.

We are committed to meeting the growing and diverse needs of our clients. Our senior-level recruiting staff is particularly adept at forecasting needs, strategizing, and pipelining these individuals into our database. Once a partnership has been formed, the Infinity Staffing Solutions' recruiting staff will proactively maintain a network of qualified candidates, matching both the technical and interpersonal skills required by your particular environment. This enables us to establish strong, lasting business relationships.

We believe that achieving our vision is contingent upon meeting tough quality standards as defined by our clients and employees. That means we are willing to be measured by the responses and experiences of our customers. We continue to follow up on the progress of our candidates after a placement is made to measure the performance of our candidates and to make certain that both skills and personalities are in perfect sync with your expectations.
